Subject: RE: No further extensions

Dear Ms. Noun:

This office is counsel for the ZBA.

The ZBA cannot answer your questions without debating the answers in a public meeting so there will not be any official response from the Board until a hearing.

The ZBA did express that there would be no further extensions. The answers to the rest of your questions all depend on what happens with additional information.

Subject: No further extensions

Hello, I was at the last zoom meeting re: Shinglemill Project. Zoning board advised they would not grant any further extensions.

I'm curious to know what happens if they are not prepared at the next meeting and ask for another extension and you've advised no further extensions. Is that the end of the line for this project? Does the zoning board have legal authority to say 'nope you are done'?

Thank you,

Gesina Noun
